TRAVERTINE

We supply and import a large range of high quality travertine products suitable for any area, they bring a timeless natural beauty that will be everlasting. It can transform any space into an elegant area, with its varied tones and shades used appropriately it creates a stunning feature. Travertine's many blends and properties make it ideal for pool surrounds, walkways, patios anywhere around the house whether indoor or outdoor to create an astounding effect that brings both ancient beauty and current trends together to create the perfect product for any project.

Our travertine is available in five colours - Light, Medium, Dark, Autumn and the hugely popular Mocca. Available in many finishes including tumbled, honed and brushed. We also have a new product Travertino a unique ceramic tile with a travertine like finish and look available in both light and medium ideal for indoor use for a continued theme.

If our standard sizes don't suit, you can have travertine cut to the size that you need provided you allow approx eight to ten weeks from order placement.

MOCCA TRAVERTINE

Mocca Travertine one of the more popular choices in travertine with its even light tones and unique shades it a huge favourite around swimming pools and backyard renovations..

The quality of this travertine is second to none, being one of the densest travertines on the market having little to no pitting or cavities at all..

Tumbled pavers are commonly used for both body pavers and as a finished pool coping piece, with its soft edge and streamline look it is a popular finish for most travertine pools and the variety of sizes make it easy to fit into any project.
